MICKEY DOXSEE TO OPERATE TRAIL NURSERY

Mickey Doxsee has informed us that he will carry on the business of Trail Nursery. He plans to continue the hybridization program of the late Eunice Taft. Under his direction the Trail Nursery will continue to give the fine service it has been known for in the past and will be even bigger and better.

Mickey plans to increase the Hibiscus section and has eight or ten of the new hybrids ready to release that Eunice had developed prior to her tragic death last December.

Trail Nursery at present has some four or five hundred hibiscus ready for the market and has plans to add to this quantity. They are hoping to be active at most of the shows this season.

The way to reach Trail Nursery is to go south on U.S. #41, turn right on Gladiolus Drive (also known as the Beach cut-off road), turn left on Pine Ridge Road and watch for the Trail Nursery on the right. Or you can go south on McGregor Blvd. which will angle off onto Punta Rassa Road, Pine Ridge Road joins Punta Rassa Road. You will turn left onto Pine Ridge Road and cross Gladiolus Drive. Then look to the right to find Trail Nursery.

Stop by and say "Hello" to Mickey.
